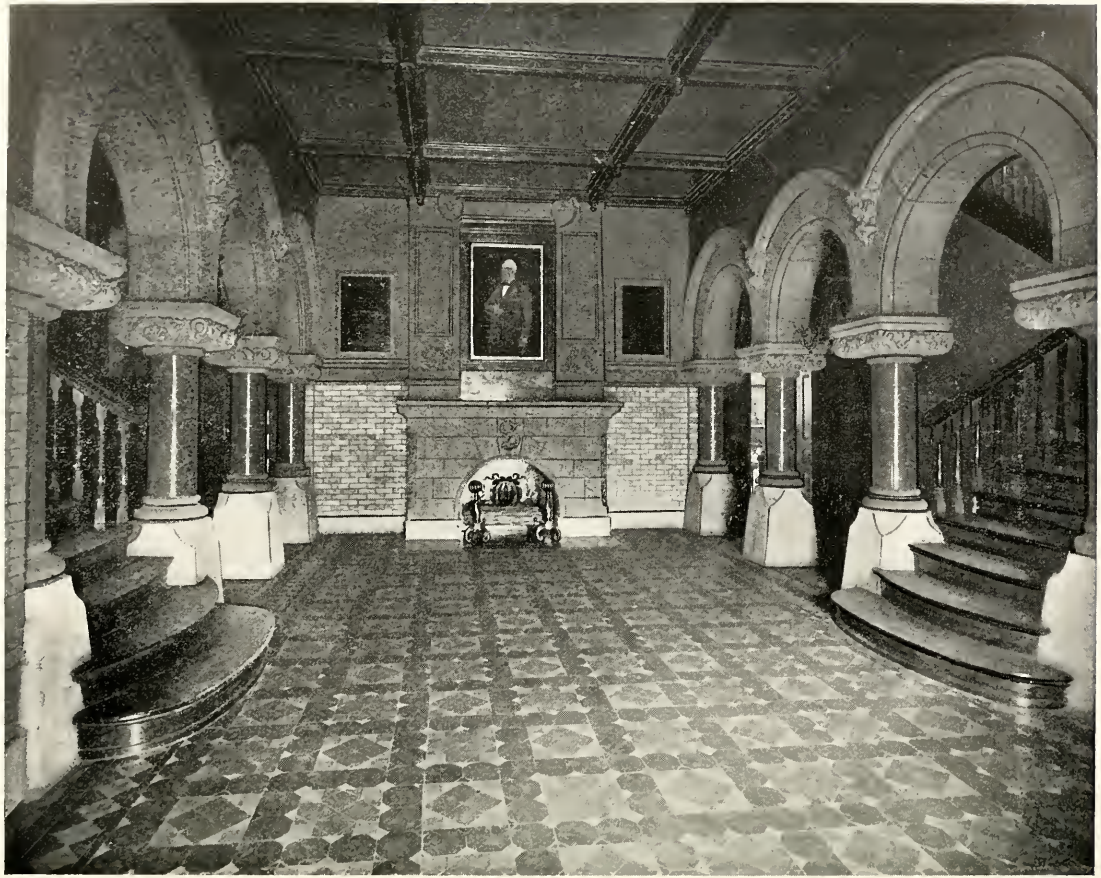
B. E., Union College, Schenectady, N. Y., '95.
English, Botany, Zoology.

MISS HATTIE POWELL,
Music.



MEMORIAL HALL.

York Collegiate Institute.

FOUNDATION.

THE York Collegiate Institute was founded by Samuel Small, to furnish the elements of a solid education at an expense so small as to be practically within the reach of all.

To carry out this purpose he selected an eligible site in the City of York, comprising a quarter square of ground, erected a commodious building, furnished and equipped it thoroughly, beautified the surrounding lawn, and laid out play grounds. He also provided a dwelling for the President of the Faculty and a boarding house adjoining for the accommodation of teachers and pupils from a distance. He conveyed the whole property to a Board of Trustees, in trust forever, and provided a liberal endowment.

This endowment has been increased by the generosity of the founder's widow, the late Mrs. Isabel Cassat Small.

There is also a Scholarship Endowment for the benefit of students who are preparing for the ministry.

The Cassat Library was a gift to the institution, and consists of two thousand five hundred volumes, especially selected.

THE BUILDING.

In December, 1885, within five months after the death of the venerable Founder, the school building was destroyed by fire, and the year following a new building was erected and completely furnished and equipped by his nephews, Messrs. George Small, W. Latimer Small and Samuel Small, as a memorial to their lamented uncle.

The new building occupies the same site, and stands on the same foundation as its predecessor; but in the new design many defects of the old building have been removed, and many improvements made which add greatly to its capacity and convenience. Adjacent to the main building, and connected by a corridor, is the Laboratory, in the basement of which is

contained the steam apparatus for heating the buildings. By the isolation of the Laboratory and furnace the risk of fire is reduced to a minimum.

Communicating with the Memorial Hall, and also by corridors with the several cloak rooms is the Main School Room. This is on the first floor, and is spacious, lofty, well lighted, comfortably furnished with single desks, and is planned in accordance with the latest improvements in educational requirements.

In the wings are six ample Recitation Rooms.

On the second floor, immediately over and equal in size to the main school room, is the Auditorium, with a seating capacity of six hundred.

The Library and Philosophical Lecture Rooms are on the third floor, fitted up with handsome book and instrument cases and other requisite furniture.

The utmost attention has been given to the heating and ventilation of the entire building.

DESIGN.

The design of the Founder contemplated a thorough course of academic instruction and training, combined with practical Christian culture; and the distinctive aim of the institution is to develop the moral along with the intellectual faculties, and inspire a love for learning and a genuine reverence for the sacred truths of our Christian religion.

The design is based on a broad and liberal catholicity, which is maintained purely and strictly without sectarian bias; and the administration of the school is pledged to absolute impartiality in regard to religious faith, and perfect respect for all. In all that pertains to this feature of the Institute the purpose is simply to maintain the healthful atmosphere of a Christian school.

The duties of each day begin with a short religious service; and every Wednesday afternoon there is a closing service consisting of a lecture and worship.

There is systematic instruction upon the main facts in the Bible once a week, covering the general outlines of Old Testament History, the life of Christ and the labors of the Apostles.

ENTRANCE.

Applicants for admission must pass an examination in spelling, reading, writing, geography, arithmetic through common and decimal fractions, and history of the United States through the war of 1812.

COURSES OF STUDY.

The studies pursued embrace a Classical Course, a Scientific Course, and a General Course. These courses are arranged to prepare students for the freshman class of any American college or scientific school, and they are adapted to secure broad, liberalizing and practical instruction and training for students who may not intend to pursue their studies further at any other institution.

THE MATHEMATICAL DEPARTMENT comprises a complete course in Arithmetic, including the metric system and commercial practice, Algebra, Geometry, Trigonometry and Surveying, including field work. For this latter subject the department is well equipped with an excellent transit and other necessary instruments. It also provides a practical course in Bookkeeping and two years work in Mechanical Draughting, including the usual geometrical work, perspective, and drawing from objects; it further offers post graduate studies in Analytical Geometry and other higher branches.

CHEMISTRY. The course in Chemistry extends through two years. The student is put to work in the laboratory from the very beginning and during the first year, in addition to the regular recitations, performs an extended series of general experiments, full notes being required on all work done. Three hours per week are required for laboratory work.

The work of the second year in chemistry consists in a thorough course in qualitative analysis, with frequent quizzes; the preparation of a series of inorganic salts; and a brief course in organic chemistry accompanied by experimental work. Five hours per week are required for laboratory work.

For those who are prepared for more advanced work the laboratory is equipped with a balance, graduated vessels, and other apparatus for quantitative analysis. TEXT-BOOKS: Storer and Lindsay's Manual of Chemistry; Smith and Keller's Experiments in General Chemistry; Stoddard's Outline of Qualitative Analysis.

PHYSICS. The course in Physics extends over two years. During the first year the subjects pursued are the General Properties of Matter, Heat, and Electricity. The second year, Mechanics, General Dynamics, Sound, and Light are taken up. Laboratory work is required in connection with frequent recitations. TEXT-BOOKS: Carhart and Chute.

GEOLOGY. In connection with recitations students examine typical rocks, minerals, and fossils. As occasion offers the class is taken out for field work. TEXT BOOKS: Winchell's Geological Studies; Tarr's Physical Geography.

THE LABORATORY.

MINERALOGY. Dana's Manual is used together with the study of over three hundred mineral specimens. Blowpipe analysis is continued during one term. Crystallography receives full attention and is illustrated by a set of models of the principal forms. Williams' Crystallography is used as a reference book.

PRESENTATIONS.

During the past year presentations have been made as follows:

By Frederick Ehrenfeld—About one hundred rock specimens and fossils from Ohio and Penn'a.

By The Carborundum Co., Monongahela, Pa.—Splendidly crystallized carborundum.

By Edward Warren Fastnacht—Quartz crystal, 6 in. diameter, from York county; fine smoky-quartz crystal.

By Ernest A. Polack, '91—Finely crystallized calcite from York.

By Robert Stair, Jr., '98—Minerals and rocks.

By Arthur Frick, '97—Minerals and rocks.

By Anna M. Polack, '96—Dendritic limestone from York.

By Magdalena Glossbrenner, '99—Copy of Owen's Geological Survey of Iowa.

An urgent request is made of the graduates and friends of the Institute to aid us in enlarging these collections by contributions of any kind, if only a piece of the ordinary rock of your vicinity.

MATERIAL FACILITIES.

THE PHILOSOPHICAL HALL is furnished with apparatus for experimental work in Physics, and a large and valuable collection of minerals and typical rocks illustrates the study of Geology and Mineralogy.

THE CHEMICAL LABORATORY, which is detached from the main building, is complete in all appointments, and supplied with the most modern appliances for practical work.

THE LATIN AND GREEK ROOM is furnished with a full set of Kiepert's Classical Wall Maps.

THE CASSAT LIBRARY, containing about two thousand five hundred well selected volumes of choice literature, affords opportunity for private research and advanced literary culture.

THE GYMNASIUM is equipped with appliances for systematic exercises, which is especially important during the winter season and when the weather forbids outdoor exercise.

THE MATHEMATICAL DEPARTMENT possesses an excellent engineer's transit and other necessary instruments, and classes in surveying are given practice in actual field work.

There is also a four-inch telescope, and a large celestial globe for astronomical work.

PUBLIC EXERCISES.

THE STUDENTS OF THE SENIOR CLASS deliver orations and read essays at a public entertainment held at the close of the spring term.

FOUNDER'S DAY is observed on April 14th, as a holiday, and a literary address is delivered in the evening. The orator for '96 was President E. D. Warfield, of Lafayette College.

THE PHI SIGMA SOCIETY, which is maintained by the young men, with the co-operation of the Faculty, holds weekly meetings, with the usual literary and parliamentary exercises. The Society also holds semi-annual evening receptions for invited guests.

THE ALUMNI ASSOCIATION, now numbering over two hundred, holds its annual meeting on Tuesday evening of Commencement week. John A. Hoober, Esq., '87, York, Pa., is its President, and Miss Emily J. Glossbrenner, '94, York, Pa., is its Secretary.

BOARDING.

Under the supervision of the President of the Faculty, arrangements may be made for students who are not residents of York to secure suitable accommodations in private boarding houses. The regulations in these cases are such as experience suggests to be the best for the safety and well-being of the students and the good reputation of the institution. The expense varies from $3.50 to $5 per week.

EXPENSES.

The liberal endowment of the institution renders it possible for the tuition to be placed at the almost nominal sum of $40 per annum, one-half of which is payable at the beginning of each term, viz.:

First term, Sept.–Jan.,	$20.00
Second term, Feb.–June,	20.00

EXTRAS.

Music, Piano,	$40 per annum.
Type writing,	10 " "
Chemistry, for materials,	5 " "
" for breakage,	actual cost.

DISCOUNT AND RAILROAD FARES.

A DISCOUNT of fifty per cent. is allowed to children of clergymen of any religious denomination, and of ten per cent. to a family furnishing more than one student.

New students are charged from the date of their entrance, and all students to the end of each current term.

In case of protracted absence on account of sickness or other just cause, students are charged one-half the regular amount for the time they are absent.

COMMUTATION TICKETS may be procured at a low rate from the railroads for the use of the students who come in to attend the Institute in the morning and return in the evening.

SCHOLARSHIPS.

The Coleman Scholarship Fund yields an annual income of $150 each for seven Scholarships, payable at the end of each quarter. These Scholarships are awarded by the Board of Trustees, and are available to aid in defraying the expenses of students of the Institute, preparing for college, who intend to enter the ministry of the Presbyterian church. Students desiring Scholarships must be recommended as candidates for the ministry by their Presbytery to the Westminster Presbytery, and be approved by the Faculty and Trustees. An applicant for a Scholarship should be prepared to enter the second year of the Classical Course.

Correspondence is invited on this subject, to be addressed either to the President of the Board of Trustees or the President of the Faculty.

GRADUATES—HONORS.

In 1893 the following were graduated : in the Classical Course, William M. Gamble, Hugh McDougall, Jr., Samuel Small, Jr., ; in the Scientific Course, George Hay Kain, Frederick D. Stichter ; in the Ladies' Course, Anna D. Gamble, Anna L. Huber, Margaret E. Jordy, Lydia F. H. Walker.

The First Honor was awarded to George Hay Kain, the Second to Frederick D. Stichter and Hugh McDougall, Jr.

In 1894 the following were graduated : in the Classical Course, Evetta T. Jeffers, Martin F. J. Walker ; in the Scientific Course, Harry M. Anderson, Henry Smyser Davis, Nevin Ambrose Diehl, Emily Jameson Glossbrenner, Horace F. Greenawalt, Janet L. P. Gross, John Messick Gross, Anna Edgar Myers, William Henry Myers.

The First Honor in the Classical Course was awarded to Martin F. J. Walker, the Second to Evetta T. Jeffers; the First Honor in the Scientific Course to Henry S. Davis, the Second to Harry M. Anderson and Janet L. P. Gross.

In 1895 the following were graduated; in the Classical Course, H. Alford Boggs, Edwin E. Curtis, Frederick L. Flinchbaugh, Nelson B. Kline, John C. Landis, Gwendolen Cadwallader and Cara B. Watt; in the Scientific Course, Granville Hartman, Jr., and Mary E. Jessop.

Those receiving honor grades were Edwin E. Curtis, Frederick L. Flinchbaugh, John C. Landis and Cara B. Watt.

REPORTS.

Reports of attendance, scholarship and deportment are sent to parents or guardians at the end of each term.

UNDERGRADUATE HONORS.

Those who took honor grades (90 per cent. or over) in the work of the first term of this year, in general average.

The Misses Sue H. Jessop, Sarah E. Rupp, Marion Louise Yost, Nora E. Spayd, Rose M. Bayler, Elsie S. Bentz, Carrie D. Emig, Marion Louisa Yost, Lucy A. Forry, Emilie F. Latimer.

Messrs. B. J. Myers, Chas. F. Reed, W. T. Root, E. Rae Stewart, Stuart S. Heiges, E. W. Fastnacht, T. F. Heberly.

Those who took honor grades in two or more subjects.

The Misses Mabel Wetherell, Caroline Logan, Ethel Parkhurst, Julia Bittenger, Janet C. Latimer, Agnes Stair, Amelia Himes, Ethel Billmyer, Lena Glossbrenner, Helena Small, Anna Polack.

Messrs. John Hartman, Arthur Frick, Ed. Jessop, Chas. Walker, Ivan Martin, Howard Coates, Horace Budding, W. W. Hogg, Carl Witmer.

DIPLOMAS.

Diplomas will be awarded to those students who complete the course of study in a satisfactory manner.

APPOINTMENTS, JUNE 7—10, 1896.

Sermon before the graduating class by the President, Sabbath, June 7th, 8 p. m.

Phi Sigma Reception, Monday evening, June 8th.

Alumni Re-union, Tuesday evening, June 9th.

Commencement, Wednesday, June 10th, 10 a. m.

Entrance examination 9 a. m., Thursday and Friday, June 11 and 12, also on Friday and Saturday, September 11th and 12th, at 9 a. m.

The twenty-fourth year will begin September 14, '96, at 9 a. m.

OFFICERS OF VARIOUS ORGANIZATIONS.

Alumni Association.

John Hoober, Esq., '87, President.
Rev. Reed R. Gailey, '90, Vice President.
Miss Emily Glossbrenner, '94, Recording Secretary.
*Miss Mary Walker, '87, Corresponding Secretary.

Young Men's Christian Association.

Walter F. Carson, '97, President.
Scott A. McCollam, '97, Vice President.
Lawton Hartman, '96, Secretary.
Ed. Jessop, '97, Treasurer.

Young Women's Christian Association.

Miss Nora Spayd, '99, President.
Miss Marion L. Yost, Sr., '99, Vice President.
Miss Elsie Bentz, '96, Recording Secretary.
Miss Sarah E. Rupp, '97, Cor. Secretary.
Miss Rose Bayler, '96, Treasurer.

Phi Sigma Literary Society.

Scott A. McCollam, '97, President. E. S. Ziegler, '97, Vice President.
Arthur Frick, '97, Secretary. A. C. Sonneman, '98, Treasurer.
W. T. Root, Editor.

Athletic Association.

Dr. C. H. Ehrenfeld, President. John H. Hartman, Secretary-Treasurer.
Harry Moul, Captain of Foot Ball Team.
Arthur Frick, Captain of Track Team.
Edward Jessop, Captain of Base Ball Team.

CLASS OF 1896—OFFICERS.

President, George W. Cook. Secretary, Lawton Hartman.

*Died May 4th, 1896.
